MaxxReach® telescopic conveyors provide the highest level of productivity for large volume, shipping and receiving applications for any type of distribution centers. Automate your loading and unloading areas and convey a variety of products from large or small cartons to loose bags and tires.

All of our telescopic conveyors feature a VFD controlled belt drive system providing smooth transitions from belt starts and stops at speeds up to 120 FPM. They also include a VFD controlled extension drive providing smooth operation when extending and retracting the conveyor. With a variety of lengths, widths, options and accessories, the MaxxReach conveyors will help achieve all of your material handling goals.
