

MAXXREACH

TELESCOPIC BELT CONVEYOR

DETAILS

IMPROVE PRODUCTIVITY

Reduce loading and unloading time, and decrease the number of operators and the effort required in these processes.

ERGONOMIC CONTROLS

Operators have access to all controls from the front of the conveyor.

STANDARD SAFETY FEAUTRES

- Formed side pressings to reduce sharp edges
- Extension stop bar on final stage
- UHMW stage gap filler
- Multiple emergency stops
- Audible alarm

MAXXREACH telescopic conveyors provide the highest level of productivity for large volume, shipping and receiving applications for any type of distribution center. Automate your loading and unloading areas and convey a variety of products from large or small cartons to loose bags and tires.

All of our telescopic conveyors feature a VFD controlled belt drive system providing smooth transitions from belt starts and stops at speeds up to 120 FPM. They also include a VFD controlled extension drive providing smooth operation when extending and retracting the conveyor. With a variety of lengths, widths, options and accessories, MAXXREACH conveyors will help achieve all of your material handling goals.

MAXXREACH

TELESCOPIC CONVEYOR

STANDARD SPECIFICATIONS

LOAD CAPACITY	50 lbs/ft
MAX LIVE LOAD	4000 lbs
