

GURTKURVE  
CURVE BELT CONVEYOR  
**CBC 120**

## AGILE LIKE A SNAKE AND CONFIDENT AT ANY ANGLE

With a conveyor speed of up to 2.5 m/s, agility and resilience are needed everywhere, and particularly at curves. The m06 belt curve »CBC« can be used in the continual transportation of baggage and general cargo involving a change in direction. During the development of the belt curve, a huge amount of attention was placed on ensuring the smallest space requirement for integration and ultra-simple accessibility.

### PRODUCT FEATURES

- Ultra-simple adjustment to required installation conditions
- Maintenance-free guide system
- »EIS system«: Rapid assembly due to simple modular system, perfectly optimised for transportation
- Energy-efficient and economic design

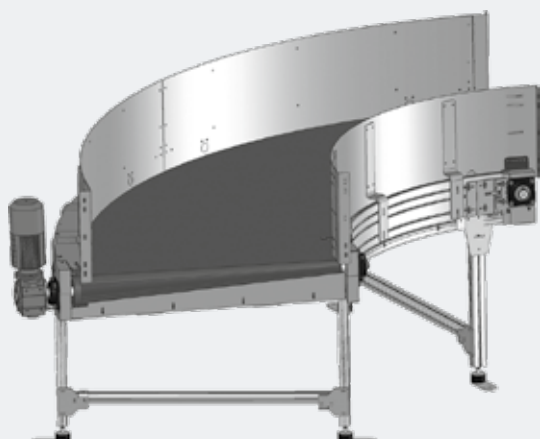

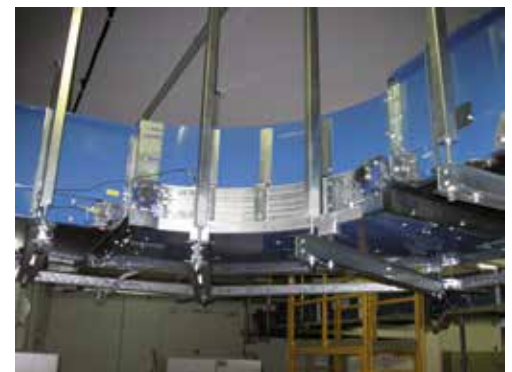

### FIELDS OF USE

#### Airport Solutions:

- Within the entire baggage conveyor system

#### Intralogistic Solutions:

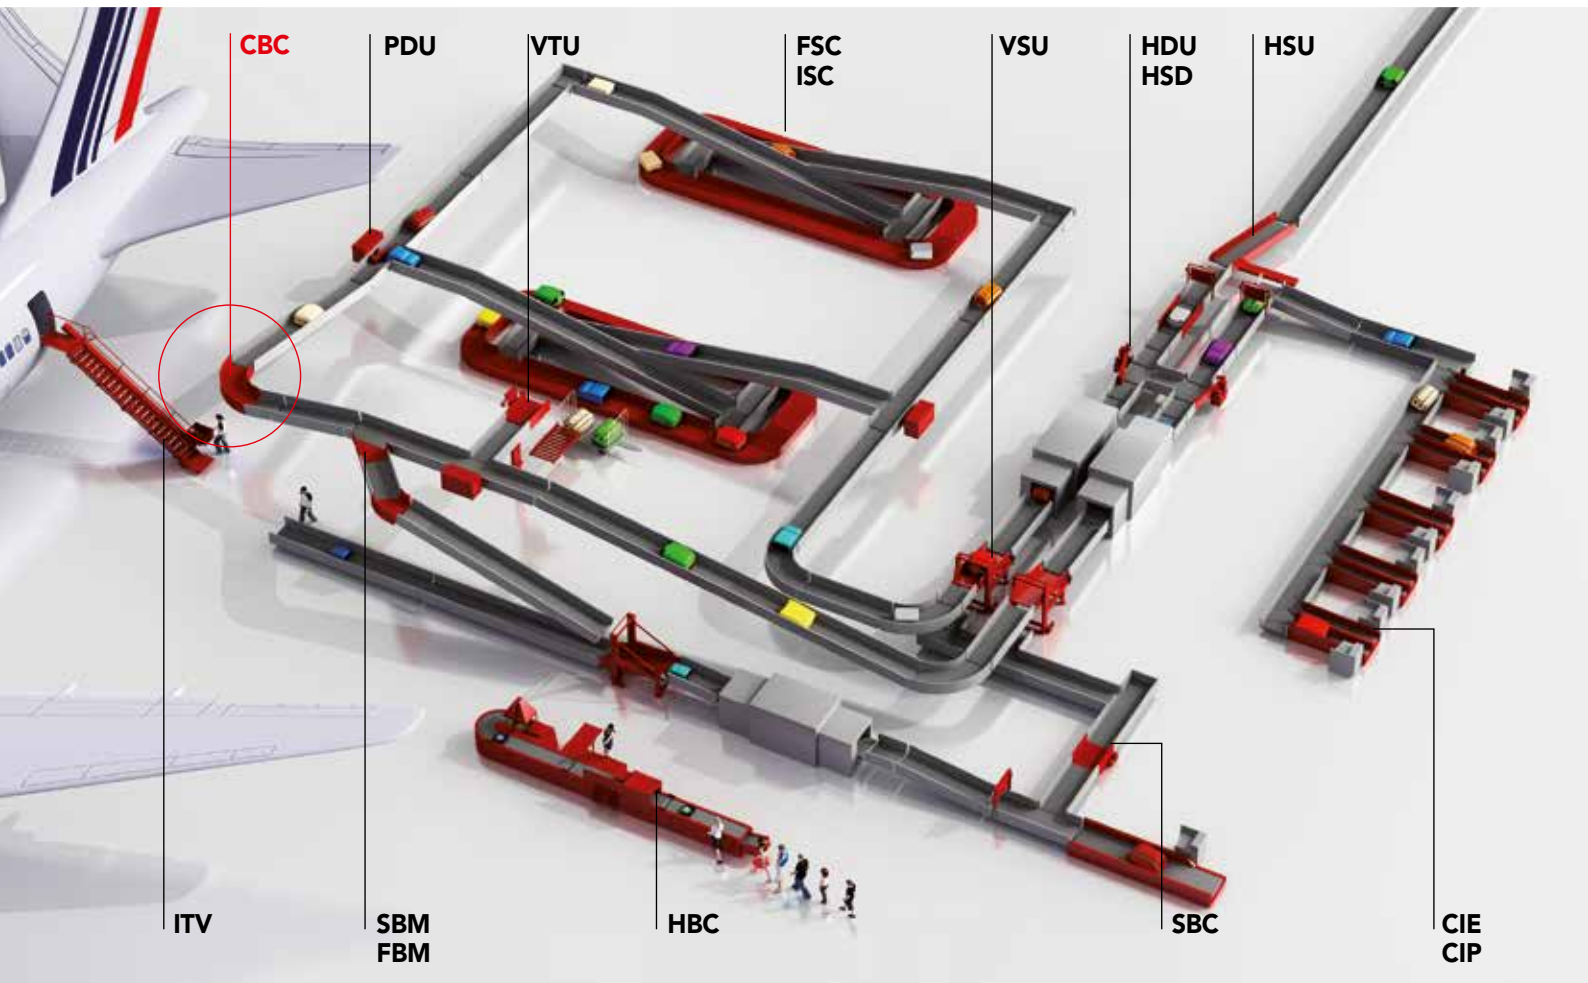

- Sorting systems in the post and parcel sector

### TECHNICAL DATA

Nominal width	up to 1,500 mm
Inside radius	up to 1,500 mm
Angles	30°, 45°, 60°, 90°
Impetus through slip-on gear drive Speed of conveyor	up to 2.5 m /s
Baggage weight	up to 50 kg

USED WORLDWIDE

## FULL SERVICE BY MOTION06

motion06 develops, builds and installs the most intelligent conveyor systems for airports, intralogistics and industry. The foundations of our company are the highest quality standards, individual concepts and complete solutions, together with continual further development. Every one of our products stands for well thought-out, sophisticated technology, precision and intelligent simplicity. We consider project safety and speed in the implementation to be par for the course. Worldwide.
