

## FAST AND ELEGANT LIKE A MANTA RAY

From 0 to 2.5 meters per second. The m06 merge »FBM« brings the package or parceled cargo onto the track like no other. Thanks to the sophisticated design using a belt, safe and fast transportation of the parceled cargo is ensured.

In connection with a »HDU« horizontal diverting unit from motion06, the merge can also be used to transfer packages outwardly at different angles.

## PRODUCT FEATURES

- High operating safety thanks to the simple design
- Closed belt surface for a smooth packaging transfer
- Automatic belt track fittings integrated
- Extremely short construction lengths possible
- Very small structural height (approximately 250mm)
- Use in cyclic operation possible
- »EIS-System«: rapid assembly due to simple modular system, perfectly optimised for transportation
- Energy-efficient and economical construction method due to low amount of spare parts

## FIELDS OF USE

### Airport Solutions:

- Feeding baggage onto conveyor lines at different angles
- Feeding baggage onto sorters at different angles
- Distributing baggage in connection with a belt deflector at different angles

### Intralogistic Solutions:

- Feeding parceled cargo onto conveyor lines at different angles
- In the CEP sector throughout the whole sorting facility
- Conveyor systems in a wide range of industrial sectors with box, container and general cargo transport
- Distribution and mail-order business

## TECHNICAL DATA

Conveyor speed	up to 2,50 m/s
Angles	30°, 45°
Belt width	up to 1,500 mm
Baggage weight	up to 75 kg

(Variations available upon request)

USED WORLDWIDE

## FULL SERVICE BY MOTION06

motion06 develops, builds and installs the most intelligent conveyor systems for airports, intralogistics and industry. The foundations of our company are the highest quality standards, individual concepts and complete solutions, together with continual further development. Every one of our products stands for well thought-out, sophisticated technology, precision and intelligent simplicity. We consider project safety and speed in the implementation to be par for the course. Worldwide.
