

## WITH THE PIERCING GAZE OF AN EAGLE

And this is exactly what makes the difference. The m06 hand baggage check »HBC« conforms to the latest standard of technology and requires minimal staff involvement for handling. The defined field of use is automated hand baggage transportation into containers with automatic container return. This keeps the manual handling of the containers to a minimum. The security personnel can focus entirely on checking passengers and baggage.

## PRODUCT FEATURES

- Ultra-simple adjustment to required installation conditions with modular system
- Very short installation length due to arch-shaped outlet
- Can be combined with all conventional x-ray machines
- Maintenance-free conveyor system with modular bands
- »EIS system«: rapid assembly due to simple modular system, perfectly optimised for transportation
- Energy-efficient and economic design

## FIELDS OF USE

### Airport Solutions:

- In the hand baggage and passenger security checking area

### Intralogistic Solutions:

- For security checks at harbours
