

BESTCONNECT

MOTOR DRIVEN ROLLERS

DETAILS

EFFICIENCY GAINS

- Faster Load / Unload
- Reduced Labor & Number of Touches
- Improved Ergonomics
- Reduced Walking for Operators
- Faster Replenishment Process
- Consistent Product Flow
- Faster Training for Operators

SERVICES AVAILABLE

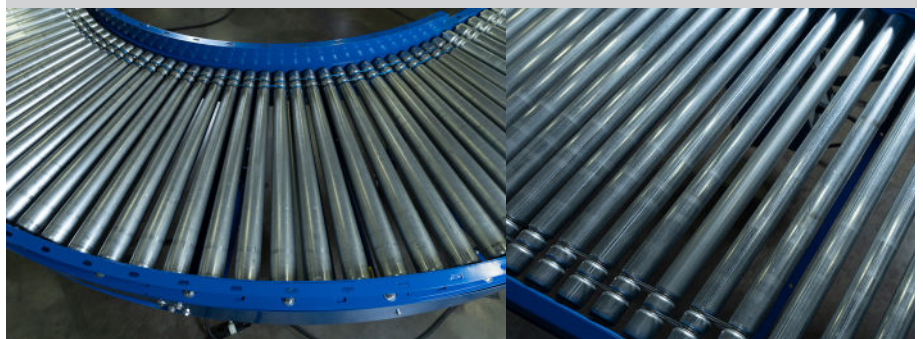

Technical Support
Installation & Service
Preventative & Routine Maintenance
Application Support
Operator & Maintenance Training
24 Month Mechanical Warranty
12 Month Electrical Warranty

TECHNICAL SPECIFICATIONS

LOAD CAPACITY	50 lbs/ft
ROLLER SIZE	1.9 in
ROLLER WIDTHS	24 in 30 in 36 in 48 in
STANDARD AXLE CENTERS	2 in 3 in
MOTOR DRIVEN ROLLERS	24V DC Brushless
MDR SPEEDS	16 - 194 fpm

BestConnect MDR can be utilized to create systems for a variety of applications including package transfers, semi-automated sorts, and tying in manual packaging/workstations. These solutions can be quickly installed or reconfigured thanks to modular design, minimal components and hardware, and simple controls.

The brushless 24V DC motors found in BestConnect MDR are capable of more starts and stops and feature up to four times longer life than traditional brushed motors. Each modular section of BestConnect MDR is networked with the other sections, allowing greater control and accuracy throughout the system. They may also be added to customer networks for enhanced monitoring and controls.
